To No. _____ from _____

**To John Fuggle (Help4Ukraine)
And Joe Kelly (BristolAid4Ukraine)**

The MNPE "Zolochiv CDH" expresses its respect to you and addresses the following.

The Zolochiv Central District Hospital is a multidisciplinary medical facility that provides inpatient and outpatient medical care to residents of the Zolochiv territorial community. In the context of full-scale war, the burden on the healthcare system has increased significantly, particularly due to the increase in the number of patients, including internally displaced persons and military personnel.

We kindly request your charitable assistance in the form of an **ambulance**. The availability of a serviceable and well-equipped ambulance is critical to ensuring the timely and safe transport of patients to medical facilities, between departments, and to other medical institutions for specialised care. The vehicle will be used exclusively for the needs of patients in the Zolochiv community, in particular those who have suffered as a result of hostilities and require emergency or planned medical care.

We would be very grateful for the opportunity to receive this charitable assistance. Your support will make a significant contribution to preserving the lives and health of people during this difficult time for Ukraine. **With faith in Ukraine's victory and with respect,**

Director
MNPE "Zolochiv CDH"

Taras YATSUNSKIY
