

# Knowledge Co-Creation Program (Group & Region Focus)

General information on

## Hospital Management (A) (Online & In Japan) 課題別研修「病院経営 (A) 」(遠隔＋本邦研修) JFY 2026

Course No.: 202514974J001

Online Program Period: From June 22, 2026 to June 26, 2026

Course Period in Japan: From June 28, 2026 to July 30, 2026

This information pertains to one of the JICA Knowledge Co-Creation Programs (Group & Region Focus) of the Japan International Cooperation Agency (JICA) implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

### JICA Knowledge Co-Creation Program (KCCP)

The Japanese Cabinet released the Development Cooperation Charter in June 2023, which stated, *“In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.”* JICA believes that this ‘Knowledge Co-Creation Program’ will serve as a foundation of mutual learning process.

# I. Concept

## **Background**

In the Sustainable Development Goals (SDGs), goal 3 (health and well-being) includes the achievement of "universal health coverage (UHC)." UHC means that "all people have access to appropriate health promotion, disease prevention, treatment, and functional restoration services at an affordable cost." In order to achieve UHC, the six components of the health system framework proposed by the World Health Organization (WHO), which are (1) service delivery, (2) health workforce, (3) information, (4) medical products, vaccines & technologies, (5) financing, and (6) leadership/governance, are required to be strengthened.

Particularly in low- and middle-income countries, where the efficient use of scarce resources to achieve health goals is of paramount importance, strengthening health systems is a question of how to manage these components effectively. With these points in mind, this "Hospital Management" course aims to help human resources responsible for hospital management in low- and middle-income countries learn the know-how necessary to improve health and medical services. Each lecture in the course is organized according to the components of a health system. Through this, each participant will be able to analyze and identify hospital management problems and solutions from the perspective of health system management, and systematize them as concrete projects. These will be proposed as action plans that will serve as the final product, and by putting them into practice after returning home, each participant is expected to contribute to strengthening the health system of their country through hospital management.

## **For what?**

This program is designed for the manager of a regional core hospital for its efficient and effective management, using administrative methods.

## **For whom?**

This program is offered to human resources who are currently engaged in hospital management.

## **How?**

Participants shall have opportunities in Japan to grasp the actual conditions of hospitals in Japan and learn how to manage a hospital. And participants will take part in a workshop of a problem-solving method in order for them to analyze and tackle with the issues/problems they are currently facing. With this knowledge, they will formulate an action plan, which describes the activities to perform after they go back to their home countries.

## II. Description

**1. Title (Course No.)**

**Hospital Management (A) (202514974J001)**

**2. Online Program Period**

June 22 to June 26, 2026

**3. Course Period in Japan**

June 28 to July 30, 2026

**4. Target Regions or Countries**

Bangladesh, Cambodia, Egypt, Iran, Mozambique, Saint Christopher and Nevis, Senegal, Tajikistan, and Timor Leste

**5. Eligible / Target Organization**

Regional referral hospitals, central/regional governmental organization

**6. Capacity**

9 participants

**7. Language**

English

**8. Objective(s)**

An efficient and effective plan for hospital management is formulated to improve the participants' respective regional hospitals and central/regional governmental organizations.

**9. Overall Goal**

At the participants' respective regional core hospitals, an efficient and effective plan for hospital management is introduced.

**10. Output**

- (1) To be able to explain the concept and practical know-how of hospital management.
- (2) To be able to collect and arrange pertinent information for decision making.
- (3) To be able to design an efficient and effective plan for hospital management.

Participants are expected to formulate an Action Plan that describes specific activities that the participants will undertake in order to put their knowledge into practice after completing the course. When they complete the course, they are expected to submit/present their Action Plan to their host organizations.

**11. Contents**

This course consists of the following contents.

**< On-demand online lectures >**

- Health Medical Care System in Japan - Second Edition
- What is KAIZEN? Improving Quality of Healthcare
- Improving Hospital Management with TQM: Total Quality Management
- Social Security and Modernization in JAPAN

### **< Lectures in Japan >**

1. Practical theory for hospital management
  - Japan's healthcare service and the characteristics of its healthcare insurance system
  - Emergency medical services/ patient transportation system in Japan
  - Hospital operational improvement: introduction to 5S-TQM
  - Medical equipment management for better quality healthcare services
  - Functional Evaluation of a Hospital
  - Hospital managerial accounting
  - Quality indicator (QI)
  - Health Care Administration and Management
  - WHO Health Systems Framework and hospital management
2. Practice at St. Mary's Hospital
  - Emergency medical services & disaster prevention measures
  - Human resources development (Nursing Dept. as example)
  - Personnel and labor management
  - Pharmacy/ Laboratory/ Radiology dept./ Nutrition dept./Clinical Engineering dept. management system
  - Material logistics
  - Hospital waste management
  - Hospital information system
  - Infection control
  - Regional Medical Collaboration
  - Hospital safety management
  - BPR efforts (Process to acquire ISO accreditation)
3. Workshop
  - Leadership
  - Positive deviance approach in hospital management
  - Introduction of PCM/ grasping problems and making solutions through logical thinking
4. Action plan creation
  - Job Report Presentation
  - PCM workshop
  - Support for action plan creation
  - Action plan presentation

### **<Structure of the Course>**

Topic outline (subject to minor changes)

1. Preliminary phase (activities in your home country)  
Preparation for Job Report
2. Core Phase (Online activities)  
Refer to above and reference schedule as page 5. (Tentative schedule)
3. Core Phase (Activities in Japan)  
Refer to above and reference schedule as page 5. (Tentative schedule)
4. Formulation of Action Plan  
Participants are required to develop an Action Plan (AP) based on the knowledge and skills acquired during the course. The AP should be practical and applicable to one's own professional activity/career from the viewpoint of hospital management.

## Tentative Course Schedule

### 1. Online Program Period

| Online program period |                          |                    |

1) JR: Job Report

2) PCM: Project Cycle Management

3) AP: Action Plan

# III. Eligibility and Procedures

## 1. Expectations to the Applying Organizations

- (1) This course is designed primarily for organizations that intend to address specific issues or problems identified in their operation. Applying organizations are expected to use the program for those specific purposes.
- (2) In this connection, applying organizations are expected to nominate the most qualified candidates to address the said issues or problems, carefully referring to the qualifications described in section III-2 below.
- (3) Applying organizations are also expected to be prepared to make use of knowledge acquired by the nominees for the said purpose.
- (4) This course is enriched with contents and facilitation schemes specially developed in collaboration with relevant prominent organizations in Japan. These special features enable the course to meet specific requirements of applying organizations and effectively facilitate them toward solutions for the issues and problems.

## 2. Nominee Qualifications

Applying organizations are expected to select nominees who meet the following qualifications.

【 Remarks 】 Each Organizations is requested to strongly encourage female candidates to apply for the course to accelerate the realization of gender equality and women's empowerment.

Disabilities: Persons with disabilities who meet the required qualifications also have an opportunity to apply. Reasonable accommodation will be considered for participants with disabilities. Some programs of the course might have difficulty for persons with disabilities to participate due to environmental and other conditions. "Reasonable accommodation" means necessary and appropriate modification and adjustments not imposing a disproportionate or undue burden, where needed in a particular case.

### (1) Essential Qualifications

- 1) Current Duties: be currently engaged in hospital management and financing.
- 2) Experience in the Relevant Field: have at least 5 years of work experience in the field.
- 3) Language Proficiency: have a competent command of spoken and written English proficiency equivalent to CEFR B2 or above. (This workshop includes active participation in discussions, which requires high competence in English. Please attach an official certificate for English ability such as TOEFL, IELTS, etc., if possible.)
- 4) Participation: Should be able to participate, giving full attention, in both scheduled live session (18:00-19:30 Japan Standard Time, June 22, 2026)

and program in Japan (June 28 – July 30, 2026).

5) IT Proficiency:

- Basic computer skills such as sending/receiving email with attachments and using a web browser.
- Basic computer skills such as, using a Microsoft Office (WORD/EXCEL/POWERPOINT) or an equivalent.

6) Online Program Participation Environment

- To be able to establish a stable and secure connection to the internet (if you have any concerns over Internet access, please do not hesitate to ask about it to the JICA office in your country.).
- To be able to prepare a PC/Tablet, a webcam, a microphone, and earphones.

7) Health: must be in good health to participate in the program in Japan.

Participant's health and safety should be most respected. Pre-existing conditions and pregnancy may lead to health problems that were not present prior to arriving in Japan due to stress from international travel, changes in climate, and a new living environment. In recent years, regrettable cases have occurred, including the exacerbation of symptoms after arrival and, in the case of pregnancy, stillbirth. Some participants have also incurred substantial out-of-pocket medical costs. If any of the conditions below may apply, please take a moment to consider whether to participate, and continue after confirming your agreement to the points below.

① Questionnaire

("QUESTIONNAIRE ON MEDICAL STATUS AND RESTRICTION")

If any of the following apply, you must state them accurately in the questionnaire, even if they do not affect your current work or daily life.

- a. Chronic diseases (e.g., hypertension, diabetes)
- b. Conditions currently under treatment
- c. Past illnesses that have resolved (including serious conditions affecting the heart, liver, or brain; tuberculosis, etc.)
- d. Pregnancy (for female applicants)

② Medical certificate

Please submit a medical certificate issued by a doctor that your condition is stable and that, from a medical standpoint, there is no problem with your participation in KCCP in Japan.

Applicable cases:

- a. Chronic diseases (e.g., hypertension, diabetes)
- b. Conditions currently under treatment
- c. Past illnesses that have resolved (including serious conditions affecting the heart, liver, or brain; tuberculosis, etc.)

③ Reporting changes

If pregnancy or any health issues are identified after submitting the form,

please report them to JICA promptly.

④ Insurance coverage

Medical and additional living expenses related to pregnancy and pre-existing conditions are NOT covered by insurance arranged by JICA. Such costs must be borne entirely by the participant; JICA assumes no liability.

\* Please understand that insurance coverage applies only to sudden illness or injury occurring during your stay in Japan.

\* Medical expenses in Japan could be a significant financial burden when not covered by insurance. Please submit a medical certificate issued by a doctor that your condition is stable and that, from a medical standpoint, there is no problem with your participation in KCCP in Japan.

## **(2) Recommended Qualifications**

- 1) Age: between the ages of thirty (30) and forty (40) years.
- 2) Gender Equality and Women's Empowerment: JICA seeks more female applicants due to the past records of fewer applications from women. JICA is committed to promoting gender equality and women's empowerment, and provides equal opportunities for all applicants regardless of their sexual orientation or gender identity.

## **3. Required Documents for Application**

### **(1) Application Form:** The Application Form is available at **the JICA overseas office (or the Embassy of Japan)**

\* If you have any difficulties/disabilities which require assistance, please specify necessary assistance in the QUESTIONNAIRE ON MEDICAL STATUS RESTRICTION (1-(c)) of the application form. Information will be reviewed and used for reasonable accommodation.

### **(2) Photocopy of Passport:** You should submit it with the application form if you possess your passport which you will carry when entering Japan for this program. If not, you are requested to submit its photocopy as soon as you obtain it.

\*The following information should be included in the photocopy:

Name, Date of Birth, Nationality, Sex, Passport Number and Expiry Date

\*It is recommended that your passport be valid for more than 6 months after the last day of the program.

### **(3) English Score Sheet:** to be submitted with the application form, if the nominees have any official English examination scores. (e.g., TOEFL, TOEIC, IELTS)

### **(4) Job Report:** to be submitted with the application form. Fill in Annex VI of this General Information.

#### **4. Procedures for Application and Selection**

##### **(1) Submission of the Application Documents**

Closing date for applications: **Please confirm the local deadline with the JICA overseas office (or the Embassy of Japan).**

(All required material must arrive at JICA KYUSHU in Japan by **April 20, 2026**)

##### **(2) Selection**

Primary screening is conducted at the JICA overseas office (or the embassy of Japan) after receiving official documents from your government. JICA Center will consult with concerned organizations in Japan in the process of final selection. Applying organizations with the best intentions to utilize the opportunity will be highly valued.

The Government of Japan will examine applicants who belong to the military or other military-related organizations and/or who are enlisted in the military, taking into consideration of their duties, positions in the organization and other relevant information in a comprehensive manner to be consistent with the Development Cooperation Charter of Japan.

##### **(3) Notice of Acceptance**

The JICA overseas office (or the Embassy of Japan) will notify the results **not later than May 11, 2026**.

#### **5. Conditions for Participation**

The participants of KCCP are required

- (1)** to strictly observe the course schedule,
- (2)** not to change the air ticket (and flight class and flight schedule arranged by JICA) and lodging by the participants themselves,
- (3)** to understand that leaving Japan during the course period (to return to home country, etc.) is not allowed (except for programs longer than one year),
- (4)** not to bring or invite any family members (except for programs longer than one year),
- (5)** to carry out such instructions and abide by such conditions as may be stipulated by both the nominating Government and the Japanese Government in respect of the course,
- (6)** to observe the rules and regulations of the program implementing partners to provide the program or establishments,
- (7)** not to engage in political activities, or any form of employment for profit,
- (8)** to discontinue the program, should the participants violate the Japanese laws or JICA's regulations, or the participants commit illegal or any type of immoral conduct including sexual harassment, or get critical illness or serious injury and be considered unable to continue the course. The participants shall be

responsible for paying any cost for treatment of the said health conditions except for the medical care stipulated in (3) of “5. Expenses”, “IV. Administrative Arrangements”,

- (9) to return the total amount or a part of the expenditure for the KCCP depending on the severity of such violation, should the participants violate the laws and ordinances,
- (10) not to drive a car or motorbike, regardless of an international driving license possessed,
- (11) to observe the rules and regulations at the place of the participants' accommodation,
- (12) to refrain from smoking except in designated areas (please note that it is difficult to find smoking area near St. Mary's Hospital, while JICA Kyushu has a smoking space),
- (13) to prepare necessary equipment (computer/tablet, webcam, microphone, and earphones) as well as global Internet access to take part in the online program,
- (14) to refund allowances or other benefits paid by JICA in the case of a change in schedule,  
and
- (15) to promptly notify JICA in the case that there are any changes in the health status since the time of application (such as changes requiring medical attention due to illness or discovery of pregnancy).

## **6. Requirements for Course Completion Conditions for Participation**

- (1) Must participate both online program and program in Japan,
- (2) Must view all the required video lectures by the deadline,
- (3) Must create an action plan with all the necessary items and submit it by the deadline,  
and
- (4) Must present the job report and action plan in the presentation sessions.

Failure to meet all the above requirements could result in non-issuance of the completion certificate.

## IV. Administrative Arrangements

### 1. Organizer (JICA Center in Japan)

(1) **Center:** JICA Kyushu Center (JICA KYUSHU)

(2) **Program Officer:** Mr. TAKAHASHI Eiichiro ([kictp@jica.go.jp](mailto:kictp@jica.go.jp))

### 2. Implementing Partner

(1) **Name:** St. Mary's Hospital

(2) **URL:** <https://www.st-mary-med.or.jp/>

(3) **Remark:** The mission of St. Mary's Hospital is to provide medical care, rooted in the local community. St. Mary's Hospital has been carrying out health and medical activities based on the "spirit of Catholic love" since its establishment in 1953. They have always been aiming at providing medical care rooted in the local community, mainly with the Emergency Medical Center. They have been making efforts in order to meet the exact medical needs of the local community. With the advice and assistance from everyone concerned, St. Mary's Hospital now has 42 clinical departments and 1,097 beds, in total. They would like to establish "comprehensiveness and the continuity of health, medical care and welfare" in collaboration with people in the local community and doctors in the future. They also believe that it is the mission of St. Mary's Hospital to promote international cooperation in medical and health care same as our local community.

### 3. Travel to Japan

(1) **Air Ticket:** In principle, JICA will arrange an economy-class round-trip ticket between an international airport designated by JICA and Japan.

(2) **Travel Insurance:** Coverage is from time of arrival up to departure in Japan. Thus, traveling time outside Japan (include damaged baggage during the arrival flight to Japan) will not be covered.

### 4. Accommodation in Japan

Basically, JICA will arrange the following accommodations for the participants in Japan:

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1. JICA Kyushu Center (JICA KYUSHU) for the period in Kitakyushu City<br/>Address: 2-2-1 Hirano, Yahatahigashi-ku, Kitakyushu-shi, Fukuoka, 805-8505, Japan<br/>TEL: +81-93-671-6311<br/>("81" is the country code for Japan, and "93" is the local area code)<br/>Please refer to facility guide of JICA KYUSHU at its URL,<br/><a href="https://www.jica.go.jp/english/domestic/kyushu/index.html">https://www.jica.go.jp/english/domestic/kyushu/index.html</a></p> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

2. Marian House 2 (Hospital Dormitory) for the period in Kurume City  
Address: c/o St. Mary's Hospital, 422 Tsubuku-honmachi, Kurume City,  
Fukuoka, 830-8543 Japan  
TEL: +81-942-35-3322 FAX: +81-942-34-3336  
("81" is the country code for Japan, and "942" is the local area code)

You are required to live communally during your stay at Marian House 2 which is like a dormitory (you will be assigned to a single private room).

There is no restaurant in Marian House 2, but a dining room and a kitchen are available at Marian House 2. You need to cook your meals yourself or buy foods at the supermarket and convenience store. There are also some restaurants around Marian House 2.

Please note that it is difficult to obtain halal around Marian House 2.

※ Kurume sightseeing: <https://welcome-kurume.com/en/spots?sort=hot>

If there is no vacancy at JICA KYUSHU and/or Marian House 2, JICA will arrange alternative accommodation for the participants.

## 5. Expenses

The following expenses in Japan will be provided by JICA

- (1) Allowances for meals, living expenses, and stopovers.
- (2) Expenses for study tours (basically in the form of train tickets).
- (3) Medical care for participants who become ill after arriving in Japan (the costs related to pre-existing illness, pregnancy, or dental treatment are not included).
- (4) Expenses for program implementation, including materials.
- (5) For more details, please see "III. ALLOWANCES" of "KENSU-  
GUIDEBOOK," (English/French/Spanish/Russian).

## V. Other Information

### 1. Reports and presentation

#### (1) Job Report

As written in the previous page, each applicant is required to submit his/her own Job Report. Participants are kindly requested to give a presentation of his/her Job Report, using PowerPoint, up to 10 minutes in the first week of the course period in Japan in order to share knowledge and background with other participants as well as instructors.

#### (2) Action Plan Report

Participants are required to write an Action Plan by the end of the program to express your idea and plan, which you will carry out after completing the course, reflecting the knowledge and method you acquire from the program. Each participant will have 10-15 minutes for presentation. The report would be sent to the respective country's JICA office.

#### (3) Laptop PC

Participants are strongly recommended to bring their own laptops and USB flash memory with them. They will be useful to take notes, modify reports, and prepare for presentations. If one does not bring her/his own PC, then she/he can check out from JICA KYUSHU library, but please be reminded that only English OS is available. Please note that Japan's standard voltage is 100V and commonly found power outlets in Japan is type A.

### 2. International Exchange Program with Local Communities

JICA encourages international exchange between JICA participants and local communities. Participants may have a chance to visit schools or communities. Therefore, participants are recommended to bring their national costumes or crafts that can introduce your country, in order to make the exchange program more fruitful.

### 3. Remarks

JICA Knowledge Co-Creation Program is implemented for the purpose of development of human resources that will promote development of the countries, and not for the enrichment of private companies. Matters of a trade secret and patent techniques will remain confidential and inaccessible during the program.

## VI. Annex

### HOSPITAL MANAGEMENT (A) (JFY 2026)

#### *Job Report (Country Report)*

Name of applicant:

Country:

Organization and present post:

E-mail:

**Remarks 1:** The Report should be typewritten in English **(12-point font, A4 size paper)**, and total pages of the report must be **limited to 5 pages**.

**Remarks 2:** The purpose of the report is to make the program more effective and fruitful by comprehending the situations and problems of the participants each other. Your report will be uploaded onto the course platform and be available for viewing for all participants and facilitators/organizers of the course during the viewing period.

**Remarks 3:** We recommend that you add pictures/video clips to your report in order to better describe the issues/challenges you are facing.

#### 1. (Country report)

Please fill out the following table.

|                           |  |
|---------------------------|--|
| Country Name:             |  |
| Capital:                  |  |
| Population:               |  |
| Area:                     |  |
| Climate:                  |  |
| Geographical features:    |  |
| Languages:                |  |
| Religions:                |  |
| Political system:         |  |
| Main industries:          |  |
| GDP (nominal) per capita: |  |
| Main exports:             |  |
| Main imports:             |  |

2. Describe overall conditions of status health and medical situations (national strategies, organization structure of health institutions including ministry of health, main medical systems including insurance schemes main diseases and health services, number of hospitals, medical staffs, and other supportive systems, etc.).
3. Describe the mission of your organization and department/division.
  - (1) Name of Organization
  - (2) Mission of organization and department/division you belong to
  - (3) Draw a chart of your organization and write the names of the departments/sections. In addition, please add the number of staff at each department (section).
  - (4) Your position
  - (5) Describe your current duties.

#### 4. Hospital Profile

Please explain the administration of your hospital.

|                                          |                              |                        |                       |                    |
|------------------------------------------|------------------------------|------------------------|-----------------------|--------------------|
| Ownership                                |                              |                        |                       |                    |
| Name of the hospital                     |                              |                        |                       |                    |
| Coverage area                            |                              | km <sup>2</sup>        |                       |                    |
| Coverage population(estimate)            |                              | persons                |                       |                    |
|                                          |                              | The 2 years ago<br>( ) | The 1 year ago<br>( ) | Latest year<br>( ) |
| Number of employees                      | Medical doctor (persons)     |                        |                       |                    |
|                                          | Nurse (persons)              |                        |                       |                    |
|                                          | Others (persons)             |                        |                       |                    |
| Number of beds                           |                              |                        |                       |                    |
| Average length of stay                   |                              | day                    | day                   | day                |
| Bed occupancy rate                       |                              | %                      | %                     | %                  |
| Number of inpatients per month (persons) |                              |                        |                       |                    |
| Number of outpatients per day (persons)  |                              |                        |                       |                    |
| Number of deliveries per month (persons) |                              |                        |                       |                    |
| Number of operations per month           | General anesthesia (persons) |                        |                       |                    |
|                                          | Local anesthesia (persons)   |                        |                       |                    |

5. Questions

- (1) In your hospital/organization, what are the urgent issues to be solved? Please describe in as much detail as possible.
- (2) Among the above-mentioned issues, please specify the one(s) which is (are) within the scope of your duties. Also, please name the main cause(s) of the said issue(s).
- (3) Describe a project idea to solve or alleviate the issues above if you have. Please pick out the highest-priority ones and show how you think the problem could be solved.

## **For Your Reference**

### **JICA and Capacity Development**

Technical cooperation is people-to-people cooperation that supports partner countries in enhancing their comprehensive capacities to address development challenges by their own efforts. Instead of applying Japanese technology per se to partner countries, JICA's technical cooperation provides solutions that best fit their needs by working with people living there. In the process, consideration is given to factors such as their regional characteristics, historical background, and languages. JICA does not limit its technical cooperation to human resources development; it offers multi-tiered assistance that also involves organizational strengthening, policy formulation, and institution building.

Implementation methods of JICA's technical cooperation can be divided into two approaches. One is overseas cooperation by dispatching experts and volunteers in various development sectors to partner countries; the other is domestic cooperation by inviting participants from developing countries to Japan. The latter method is the Knowledge Co-Creation Program, formerly called Training Program, and it is one of the core programs carried out in Japan. By inviting officials from partner countries and with cooperation from domestic partners, the Knowledge Co-Creation Program provides technical knowledge and practical solutions for development issues in participating countries.

The Knowledge Co-Creation Program (Group & Region Focus) has long occupied an important place in JICA operations. About 400 pre-organized courses cover a wide range of professional fields, ranging from education, health, infrastructure, energy, trade and finance, to agriculture, rural development, gender mainstreaming, and environmental protection. A variety of programs is being customized by the different target organizations to address the specific needs, such as policy-making organizations, service provision organizations, as well as research and academic institutions. Some programs are organized to target a certain group of countries with similar developmental challenges.

### **Japanese Development Experience**

Japan, as the first non-Western nation to become a developed country, built itself into a country that is free, peaceful, prosperous and democratic while preserving its tradition. Japan will serve as one of the best examples for our partner countries to follow in their own development.

From engineering technology to production management methods, most of the know-how that has enabled Japan to become what it is today has emanated from a process of adoption and adaptation, of course, has been accompanied by countless failures and errors behind the success stories.

Through Japan's progressive adaptation and application of systems, methods and technologies from the West in a way that is suited to its own circumstances, Japan has

developed a storehouse of knowledge not found elsewhere from unique systems of organization, administration and personnel management to such social systems as the livelihood improvement approach and governmental organization. It is not easy to apply such experiences to other countries where the circumstances differ, but the experiences can provide ideas and clues useful when devising measures to solve problems.

JICA, therefore, would like to invite as many leaders of partner countries as possible to come and visit us, to mingle with the Japanese people, and witness the advantages as well as the disadvantages of Japanese systems, so that integration of their findings might help them reach their developmental objectives.

**Contact Information for Inquiries**

For inquiries and further information, please contact the JICA overseas office or the Embassy of Japan. Further, address correspondence to:

**JICA Kyushu Center (JICA KYUSHU)**
