

ZOLOCHIV
CENTRAL DISTRICT
HOSPITAL

To the national delegate of the Knights of Columbus
Yuriy Maletskyi

I am addressing on behalf of Zolochiv Central District Hospital. People who suffered from the war and those who were forced to move in our region currently receive treatment in our hospital. In order to provide highly qualified assistance, we need financial support for buying medical equipment, namely an Digital X-ray surgical device C-arc, patient monitor (6 pc); electric defibrillator (1pc); bedside panels (8 pc). Our mission is to improve the quality and speed of emergency medical care. Due to the reasons and events described above I would like to kindly request the Knights of Columbus to provide financial support of 50,000 dollars to improve our assistance to displaced people. We will be very grateful for your positive response to our inquiry.

Glory to Ukraine!

Taras Yatsunskyi
